# Time for change we can believe in

---

If ObamaCare is so good for the country, then why isn't ObamaCare good for Congress? Shouldn't our elected representatives have the same health benefits that they deem the rest of us must have?

Or is this yet another example of a disconnected Congress continuing to evolve into a ruling elite of "Do as I say, not as I do"?

Something for the voters of New Hampshire to consider as they evaluate candidates for November. Let's make a change we can believe in.

Bill Ohm
